Notat

Inddrivelse Betaling og Regnskab SAP38 - Taastrup

15. Juli 2014

Endelig regnskabsgodkendelse - periode 06.2014

SAP38 har i forbindelse med regnskabsafslutningen og i forlængelse af sandsynlighedskontrollen foretaget kontrol med, at aktiver og passiver er regnskabsmæssigt afstemt for firmakode 6112 Udbytte.

Status på arbeidsopgaver

Udbytteskat er ajour med behandlingen af kundehenvendelser via Remedy og mailpostkassen.

Manglende udførsel af opgaver

Udbytteskat er blevet meget sårbar, da driftsenheden har haft meget stor personaleafgang og der er **ta** medarbejdere tilbage, som er meget specialiseret inden for de enkelte områder.

Det bør overvejes, hvorvidt opgaverne helt eller delvist skal overflyttes til DMO/DMS i Horsens eller Ringkøbing.

• Indtægter eller udgifter, somskønnes at have væsentlig betydning for om regnskabet er retvisende

På konto 2236 er der pr 30. juni 2014 udbetalt 4.116.519.370 mia kr i refusion til udenlandske aktionærer, hvilket sammenlignet med totaltallet for 2013 2.851.494.605 mia kr betyder en stigning på 1.265.024.765 mia kr midtvejs i 2014.

En årsag hertil kan være, at flere amerikanske pensionskasser foretager opkøb i danske virksomheder.

De amerikanske pensionskasser skal ikke betale dansk skat, så derfor de meget store tilbagebetalinger.

• Hvorvidt der i perioden er konstateret væsentlige fejl og mangler, herunder hvornår, der er foretaget fejlrettelse med angivelse af bilagsnummer og periode.

Ingen bemærkninger.

SAP38 har foretaget vurdering af månedens indtægter og udgifter samt aktiver og passiver for firmakode 6112 Udbytteskat og disse anses for at være

15. July 2014

Final accounting approval - period 06.2014

Sap38 has checked, in connection with the clearance of accounts and in the context of the probability check, that assets and liabilities are accountingly aligned with company code 6112 Dividends.

Status of work tasks

Case 1:18-md-02865-LAK

Dividend tax is up to date with the processing of customer inquiries via Remedy and the mail mailbox.

Failure to perform tasks

Dividend tax has become very vulnerable as the operating unit has had very large staff departures and there are a number of employees who are very specialized in the individual areas.

Consideration should be given to whether the tasks should be transferred in whole or in part to DMO/DMS in Horsens or Ringkøbing.

• Revenue or expenditure deemed to have a significant impact on the true and Einestoftheaccounts

Item 2236 is available on 30 June 2005. The total for 2013 was DKK 2,851,494,605 billion, which compared to the total for 2013 was DKK 2,851,494,605 billion, an increase of DKK 1,265,024,765 billion midway through 2014.

One reason for this may be that several American pension funds make purchases in Danish companies.

The American pension funds do not have to pay Danish tax, so therefore the very large repayments. Whether significant deficiencies have been identified during the period, including when corrections have been made, indicating the document number and period.

No comment.

SAP38 has assessed the revenue and expenditure of the month, as well as assets and liabilities of company code 6112 Dividend tax and these are considered to be
